ABOUT THIS CATALOGUE

One supplier for all your workwear.

This catalogue presents 59 branded workwear and accessory models, plus the safety footwear brands we supply. Every item is made in your company colours, with your logo and your size breakdown.

How to request a quote

1. **Choose the product.** Note the product name or code; clicking a product name opens its page on our website.
2. **Tell us the quantity and logo.** Send the total quantity, colours, size breakdown and logo position via our quote form or WhatsApp.
3. **Digital approval.** Our design team visualises the product with your logo; production starts once you approve.

ABOUT US · FOUNDED 2015

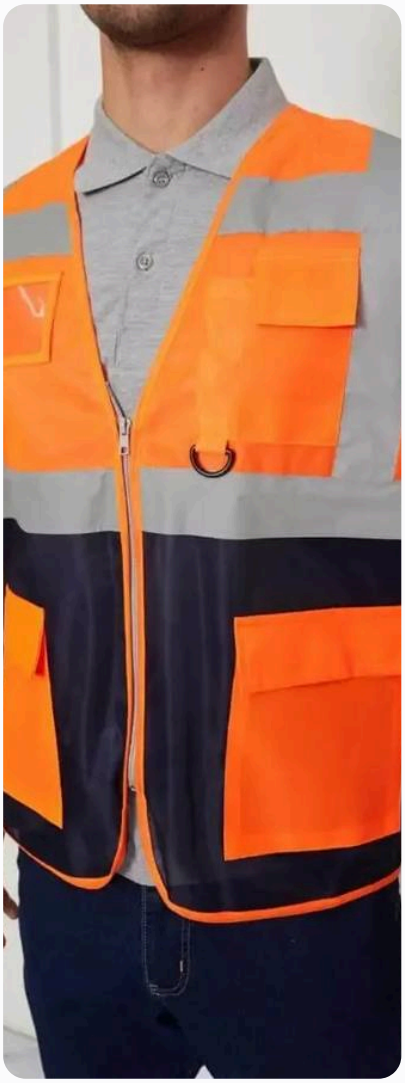

Not a middleman. We are the manufacturer.

Mars Wear was founded in 2015 to make staff and school uniforms. Today we design and manufacture custom workwear and uniforms for organisations across many sectors **in our own production facility in Zeytinburnu, Istanbul**.

Design, production, logo printing and embroidery all happen under one roof. Because we shorten the supply chain, we manage both price and lead time in your favour.

We make our workwear from fabrics suited to occupational health and safety needs, and we prioritise designs that are comfortable, durable and represent your organisation well. Safety footwear comes from brands we are dealers for and supply.

2015
Manufacturing since we were founded

Zeytinburnu
Our own production facility · showroom in Esenyurt

12 countries
On 3 continents · production for organisations abroad

15 days
Average lead time, in working days, after design approval

WHY MARS WEAR?

What a manufacturer brings you.

The way to get quality, lead time and price right at the same time is to work with a partner who runs production directly.

01

Our own production facility

Products leave our facility in Zeytinburnu. No middlemen and no extra margins; quality and lead time are directly under our control.

02

Our own design team

Our senior fashion designers prepare the model, colours and logo placement for your organisation with 3D and video design.

03

Digital design approval

Before production you see the product with your logo as a digital visual and approve it. No surprises: what you approve is what we make.

04

One-stop solution

We make the whole uniform, from T-shirts to jackets, and supply safety footwear. One contact, one quote, one shipment.

05

15 working days

Average production time of 15 working days after design approval. We deliver on the date we promise.

06

Türkiye and abroad

Shipping across Türkiye and to 12 countries on 3 continents. Boxes can be split by size and branch.

Production to standards

Up-to-date technology and quality workmanship for domestic and export markets.

People and the environment

Fabrics suited to occupational health and safety needs, and continuously monitored production.

Honest business

Delivered on the promised date, without compromising on quality.

FROM DESIGN TO DELIVERY

A custom uniform in four steps.

1

Quote

Send quantity, colours, sizes and logo details via our quote form or WhatsApp. We reply within 1 working day.

2

Design approval

Our design team shows the product, colours and logo placement in a digital visual.

3

Production

Production starts in Zeytinburnu once you approve; 15 working days on average.

4

Shipping

Within Türkiye and abroad; boxes split by size, branch or employee.

Order terms

Minimum order	100 pieces; colours and sizes split freely within them.
Size range	XS – 5XL; larger sizes on a custom pattern. Women's and men's patterns on most models.
Colour	Stock colours or your corporate colour.
Price	Tiered by quantity, fabric and logo; excluding VAT.
Logo	Embroidery, print or woven label, recommended per product.
Delivery	Average 15 working days after design approval.

Care advice

- Wash at 30 °C, inside out; logos and colours last longer.
- Do not use bleach or stain remover; they damage reflective tape.
- Do not iron over logos or tape; iron on the reverse at a low heat.
- Do not dry hi-vis items in direct sunlight; the colour fades over time.

Open the quote form →

Frequently asked questions

Is the logo included in the price?
Prices exclude the logo; it is added per piece by position and method, itemised in your quote.

Can we mix colours and sizes?
Yes, freely within the minimum order of 100 pieces.

Can you produce in our corporate colour?
Yes. We develop fabric in your corporate colour; quantity and lead time are confirmed in your quote.

Do you ship abroad?
Yes, to 12 countries on 3 continents so far, with labelling and packing planned alongside production.

Your logo, the right method, the right place.

Not every fabric suits every method. Our design team places your logo using the best method for the product and sends you a digital visual for approval before production.

Embroidery

The most durable and most corporate-looking method. The thread is stitched into the fabric; it does not fade or crack in the wash.

Polo and piqué shirts, fleece, sweatshirts, caps, beanies, shirts

Print

For large areas and multi-colour logos. Transfer and screen printing; the first choice for back lettering.

Single jersey T-shirts, sweatshirt backs, softshell, rainwear, vests

Woven label

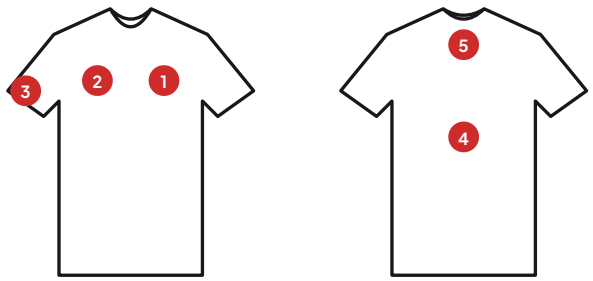

For finely detailed, multi-colour logos; gives detail embroidery cannot. Sewn on.

Beanies, caps, scarves, knitwear

Reflective application

The logo or back lettering is applied in reflective material; it adds to night-time visibility.

Jackets, vests, site clothing

1. **Left chest** — standard logo position; embroidery
2. **Right chest** — second logo, name or department
3. **Sleeve** — dealer, branch or project
4. **Back** — company name, role, large logo
5. **Back of neck** — small brand mark or web address

Three rules

No logo over reflective tape.
Print or embroidery covers the reflective surface; we place the logo between the bands.

No embroidery on coated fabric.
On softshell and rainwear the needle holes let water in; we print instead.

No transfer print on knitwear.
On beanies and scarves the knit cracks the print; we use embroidery or a woven label.

Fabric guide

Single jersey	100% cotton; smooth, soft surface. Carries print sharply.	T-shirt · 160–220 g/m²
Piqué	100% cotton; textured, breathable surface. The best base for embroidery.	Polo · 160–220 g/m²
Two-thread fleece	65% cotton, 35% polyester; brushed inner face.	Sweatshirt · 260 g/m²
Three-thread fleece	Thick and full-bodied; an outer layer in cold weather.	Sweatshirt · 320 g/m²
Gabardine 16/12 · 7/7	100% cotton; 16/12 is light and breathable for summer, 7/7 is tightly woven for winter.	Trousers, coveralls, jackets
Fleece	Anti-pilling finish; pill-resistant and light.	Fleece jackets, gilets, accessories
Softshell	Blocks wind, water-repellent, stretchy.	Jackets, gilets
Oxford / PU-coated	Tightly woven, waterproof surface; welded or taped seams.	Rainwear, waterproof jackets

A ready-made kit for every sector.

We know what the job demands. The kits below are a starting point; we finalise the products, colours and logo positions with you.

PRODUCT GROUP · 8 MODELS

Work T-Shirts and Shirts

Polo, crew, mandarin and V-neck; reflective models and a corporate shirt. Piqué and single jersey, 160–220 g/m² weight options — in your company colours, with your logo.

MW-PYT-001 WORK T-SHIRTS AND SHIRTS

Polo Work Shirt

100% cotton piqué, polo collar with a buttoned placket, rib-knit collar and sleeve hems. The corporate standard between office and site.

- 100% cotton piqué fabric — a textured surface that breathes and looks corporate
- Polo collar — a rib-knit collar that stands up, buttoned placket
- Rib-knit sleeve hems — the sleeve end keeps its shape and does not sag
- Short sleeves, regular cut — suitable for all-day wear
- Fabric alternatives — piqué, single jersey, cotton-polyester blend, dry-fit
- A wide colour range — dark, light, bright and classic shades + corporate colour production

WEIGHT	160 / 180 / 200 / 220 g/m²
SIZES	XS – 5XL (larger sizes on a custom pattern)
LOGO	Left chest embroidery (standard), right chest, back, sleeve

MW-PYUK-001 WORK T-SHIRTS AND SHIRTS

Long-Sleeved Polo Work Shirt

100% cotton piqué, polo collar with a buttoned placket, rib-knit cuffs. The seasonal layer between a short-sleeved polo and a sweatshirt.

- 100% cotton piqué fabric — a textured surface, a corporate look
- Polo collar — a rib-knit collar that stands up, buttoned placket
- Long sleeves, rib-knit cuffs — the cuff sits at the wrist and keeps air out
- A layer for the change of season — fills the gap between a short-sleeved polo and a sweatshirt
- A clear area for a sleeve logo — a placement that is not possible on a short sleeve

WEIGHT	180 / 200 / 220 g/m²
SIZES	XS – 5XL (larger sizes on a custom pattern)
LOGO	Left chest embroidery (standard), sleeve, back

MW-BYT-001 WORK T-SHIRTS AND SHIRTS

Crew-Neck Work T-Shirt

100% cotton single jersey, round neck with a rib-knit band, short sleeves. The widest back print area in the catalogue.

- 100% cotton single jersey fabric — a soft surface, high breathability
- Crew (round) neck — a rib-knit neckband; the neck keeps its shape and does not stretch out
- Nothing to catch — no buttons or placket; the safest cut around machinery
- A wide back area — the largest uninterrupted print surface in the catalogue
- Short sleeves, regular cut — does not restrict shoulder or arm movement
- Fabric alternatives — single jersey, piqué, cotton-polyester blend, dry-fit

WEIGHT	160 / 180 / 200 / 220 g/m²
SIZES	XS – 5XL (larger sizes on a custom pattern)
LOGO	Left chest, back, sleeve

MW-HYT-001 WORK T-SHIRTS AND SHIRTS

Mandarin-Collar Work T-Shirt

A stand (grandad) collar, short button placket, 100% cotton piqué or single jersey. More covering than a crew neck, plainer than a polo.

- Mandarin (stand / grandad) collar — an upright band around the neck that does not fold over
- Short button placket — shorter and plainer than a polo placket
- 100% cotton — piqué or single jersey; a blend alternative
- Contrast collar and sleeve binding — in your corporate colour on request
- Short sleeves, rib-knit sleeve hems
- Antibacterial finish — on request

WEIGHT	160 / 180 / 200 / 220 g/m²
SIZES	XS – 5XL (larger sizes on a custom pattern)
LOGO	Left chest embroidery (standard), back, sleeve

MW-VYT-001 WORK T-SHIRTS AND SHIRTS

V-Neck Work T-Shirt

Logo printed

100% cotton, V-neck, rib-knit neckband, no placket. An uninterrupted print area on the front and back.

- V-neck — rib-knit neckband; no buttons or placket
- An uninterrupted print area — a front surface that runs unbroken from below the neck to the hem
- 100% cotton — single jersey or piqué; blend and dry-fit alternatives
- Modern cut — a neater silhouette than a classic T-shirt
- Short sleeves — rib-knit sleeve hems

WEIGHT	160 / 180 / 200 / 220 g/m²
SIZES	XS – 5XL (larger sizes on a custom pattern)
LOGO	Left chest, centre front, back, sleeve

MW-PYT-R01 WORK T-SHIRTS AND SHIRTS

Reflective Polo Shirt

Hi-vis and navy, 100% cotton piqué

100% cotton piqué, reflective tape on chest and shoulders. Fluorescent yellow or navy. Logo embroidery optional.

- Polo collar, short-sleeved work polo shirt with buttoned placket
- Reflective tape: two horizontal bands across the chest and two vertical bands over the shoulders
- The fluorescent yellow model has a navy collar and hem panel, so the areas that get dirty first stay dark

FABRIC	100% cotton piqué — breathable, textured surface
COLOUR	Fluorescent yellow and navy
LOGO	Embroidered on the left chest, printed or embroidered on the back

MW-BYT-R01 WORK T-SHIRTS AND SHIRTS

Reflective Crew Neck T-Shirt

Hi-vis orange, 100% cotton single jersey

100% cotton single jersey, segmented reflective tape, fluorescent orange body, navy collar and hem. Logo optional.

- Crew neck, short-sleeved work t-shirt
- Segmented reflective tape: two horizontal bands across the chest and two vertical bands over the shoulders

FABRIC	100% cotton single jersey — smooth, soft surface
COLOUR	Fluorescent orange with a navy collar and hem panel
LOGO	Printed or embroidered on the chest and back

MW-YG-001 WORK T-SHIRTS AND SHIRTS

Short-Sleeved Work Shirt

For customer-facing staff

A short-sleeved work shirt for customer-facing and representative staff, with a collar that keeps its shape.

- A short-sleeved work shirt for customer-facing and representative staff
- A collar construction that keeps its shape in the wash
- Fabric: cotton-polyester blend (creases less) or 100% cotton (cooler)
- Logo: embroidery on the left chest; sleeve for department or dealer

ORDER	Minimum 100 pieces · colours and sizes split freely
LEAD TIME	Average 15 working days after design approval

GOOD TO KNOW

Which collar?

A polo collar looks corporate and is the best base for embroidery — the first choice for customer-facing staff. A crew neck is the most comfortable cut: with no buttons or placket it is safe around machinery and offers the largest print area. A mandarin collar sits between the two, with a clean, modern look.

Polo collar · corporate

Crew neck · comfortable

Mandarin collar · clean

02

PRODUCT GROUP · 5 MODELS

Sweatshirts and Fleece

The mid layer from spring to winter: two- and three-thread brushed fleece sweatshirts, half-zip and hooded models and an anti-pilling fleece jacket.

MW-BSW2-001 SWEATSHIRTS AND FLEECE

Two-Thread Crew Neck Sweatshirt

Brushed fleece, 260 g/m²

260 gsm, 65% cotton 35% polyester, rib cuffs and hem. Navy, anthracite, grey marl, black, red, royal blue. Logo optional.

- Crew neck, long-sleeved sweatshirt
- Brushed inside: a soft, raised inner face that holds warmth
- Rib-knit cuffs and hem keep the heat in and hold their shape
- Made for winter and cold weather; worn on its own in spring and autumn, under a jacket or gilet in winter

FABRIC	Two-thread regenerated brushed fleece, 260 gsm · 65% cotton, 35% polyester
COLOUR	Navy, anthracite, grey marl, black, red, royal blue
LOGO	Front chest and back; printed or embroidered

MW-BSW3-001 SWEATSHIRTS AND FLEECE

Three-Thread Crew Neck Sweatshirt

Heavyweight brushed fleece, 320 g/m²

320 gsm, 65% cotton 35% polyester, thick and warm. Black, navy, anthracite, grey marl, red, royal blue. Logo optional.

- Crew neck, long-sleeved, hoodless sweatshirt
- Thick, full-bodied build with a raised, warm brushed inner face
- Rib-knit cuffs and hem keep the cold out and hold their shape
- Made for winter and cold weather; worn on its own as the outer layer on mild winter days

FABRIC	Three-thread combed-cotton brushed fleece, 320 gsm · 65% cotton, 35% polyester
COLOUR	Black, navy, anthracite, grey marl, red, royal blue
LOGO	Front chest and back; printed or embroidered

MW-NS-005 SWEATSHIRTS AND FLEECE

Half-Zip Sweatshirt

Stand collar, embroidered corporate model

Stand collar, temperature control with the zip, rib cuffs and hem. Embroidered left-chest logo; anthracite, black, navy or your corporate colour.

- Half-zip stand collar — temperature control with the zip; closed, it protects the neck from the wind
- Brushed-back sweatshirt fabric or micro fleece — two constructions, chosen for where it is worn
- Rib cuffs and hem — keep the warmth in and hold their shape
- Embroidered left-chest logo as standard; sleeve and back application optional

COLOUR	Anthracite, black, navy · corporate colours on request
SIZES	XS – 5XL · mixed size breakdown

MW-KSW-001 SWEATSHIRTS AND FLEECE

Hooded Sweatshirt

Ribbed sweat fabric

A hooded sweatshirt in ribbed sweat fabric; a mid layer for autumn and winter with large front and back logo areas.

- 50% cotton / 50% polyester blend ribbed sweat fabric (280 g standard, 320 g option)
- Hooded (hoodie) — a hood with a drawcord, protecting the head and neck
- Front kangaroo pocket, rib-knit cuffs and hem band
- Left chest, back, sleeve — multiple logo areas

SIZES	XS – 5XL (special sizes: 6XL+)
LOGO	Logo embroidery, transfer print or screen print — a large print area on the front and back

MW-BPM-001 SWEATSHIRTS AND FLEECE

Printed Fleece Jacket

Logo and embroidery, anti-pilling

Printed fleece jacket (work fleece): anti-pilling fleece, stand collar, full-length zip, zipped chest and side pockets, no hood. Logo embroidered or printed to order.

- Anti-pilling fleece fabric — a pill-resistant surface that keeps its shape in corporate use with frequent washing
- Stand collar — the zip closes up to chin level, so cold and wind do not get in at the neck
- Full-length zip — put on and taken off in seconds as a layer
- Zipped left chest pocket — a secure compartment for a phone, access card and pen
- Two zipped side pockets — contents do not fall out when bending or working at a machine

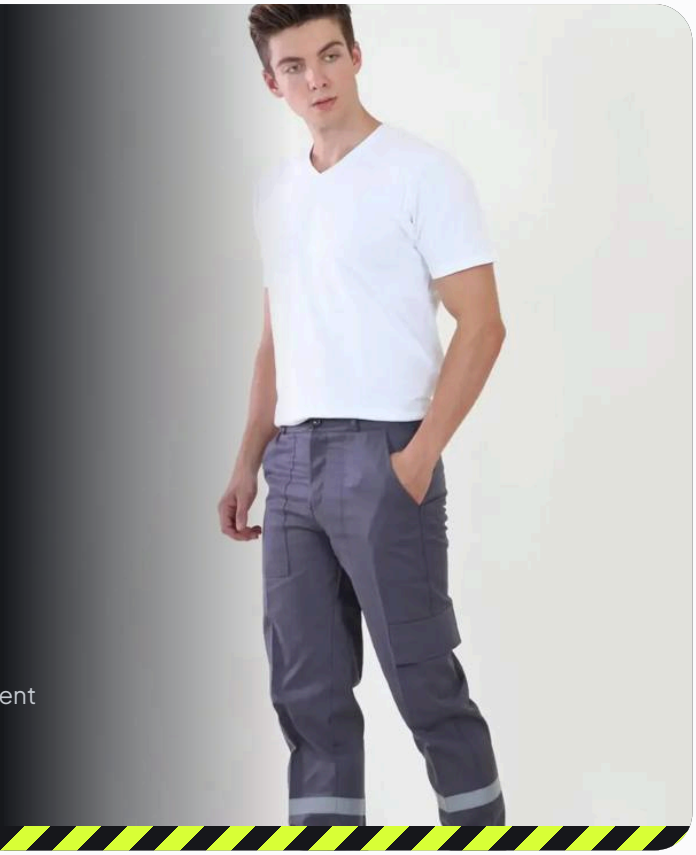

COLOUR	Black, navy, anthracite, grey, red, khaki + corporate colour production
LOGO	Left chest embroidery, back print, sleeve application
SIZES	XS – 5XL, larger sizes on a custom pattern

PRODUCT GROUP · 7 MODELS

Work Trousers

From summer gabardine to lined winter trousers, from cargo to reflective. Pocket layout and knee reinforcement are designed around your team's work.

MW-G1612-001 WORK TROUSERS

Gabardine 16/12 Summer Work Trousers

Breathable 100% cotton

100% cotton 16/12 gabardine work trousers for summer sites: rule pocket, thigh pocket, bar-tack reinforced seams and reflective hem tape. With your logo.

- 100% cotton 16/12 gabardine — a breathable fabric for summer sites
- Pockets: 2 front, rule pocket, back pocket, flapped and zipped thigh pocket
- Bar-tack reinforced seams
- Reflective hem tape — visibility at dusk and in headlights
- Your company colour and logo

ORDER	Minimum 100 pieces · colours and sizes split freely
LEAD TIME	Average 15 working days after design approval

MW-KCP-001 WORK TROUSERS

Cargo Work Trousers

Multi-pocket cargo work trousers for teams carrying tools: pocket depth, flap direction and bar-tacks designed around the tools carried. With your logo.

- Multi-pocket cargo design; pocket depth and flap direction set by the tools carried
- Bar-tack reinforced pocket openings
- Knee area: double fabric, Cordura patch or an internal knee-pad pocket
- Your company colour and logo

ORDER	Minimum 100 pieces · colours and sizes split freely
LEAD TIME	Average 15 working days after design approval

MW-KSP-001 WORK TROUSERS

Winter Work Trousers

Winter work trousers for cold-weather field teams: fleece lining or tightly woven gabardine, optional cargo pockets and knee reinforcement, your logo.

- Fleece lining or tightly woven gabardine — two winter constructions
- Optional flapped cargo pockets and knee reinforcement
- Optional reflective tape below the knee and at the calf
- Works with thermal base layers

ORDER	Minimum 100 pieces · colours and sizes split freely
LEAD TIME	Average 15 working days after design approval

MW-RIP-001 WORK TROUSERS

Reflective Work Trousers

Reflective work trousers with a fluorescent background or reinforced with tape; optional cargo pockets and knee reinforcement, your logo.

- Two constructions: fluorescent background, or tape on a dark base
- Reflective tape at least 50 mm wide, around the leg below the knee and at the calf
- A third band on the thigh — visible when seated as well
- Optional cargo pockets and knee reinforcement

ORDER	Minimum 100 pieces · colours and sizes split freely
LEAD TIME	Average 15 working days after design approval

MW-YRP-001 WORK TROUSERS

Summer Reflective Work Trousers

Fluorescent background

Summer reflective work trousers for teams working outdoors in the hot season: breathable 16/12 gabardine, fluorescent background, cargo pockets and your company logo.

- Breathable 16/12 gabardine
- Fluorescent background; tape placement designed for comfort in the heat
- Colour: fluorescent yellow, orange-red or red
- Navy or black lower leg — hides dirt

ORDER	Minimum 100 pieces · colours and sizes split freely
LEAD TIME	Average 15 working days after design approval

MW-IS-001 WORK TROUSERS

Work Shorts

Summer, cargo pockets

Corporate cargo work shorts for teams in hot climates; a wide waist with belt loops and your company logo.

- Polyester-cotton blend gabardine — dries quickly, keeps its shape
- Above-knee length; shortened or lengthened to your preference
- Wide elasticated waist plus belt loops
- Cargo pockets and your company logo

ORDER	Minimum 100 pieces · colours and sizes split freely
LEAD TIME	Average 15 working days after design approval

MW-OGP-001 WORK TROUSERS

Security Trousers

Stretch and classic cuts

Trousers for private security companies and in-house units, in a stretch or classic gabardine cut, with radio, handcuff and torch pockets and your logo.

- Stretch, new-style or classic gabardine cut
- Pockets: 2 side, 2 flapped back, 2 thigh pockets for radio and handcuffs, pen and card slot
- Reflective option for night, sports and concert duty
- Women's and men's patterns; with your company logo

ORDER	Minimum 100 pieces · colours and sizes split freely
LEAD TIME	Average 15 working days after design approval

PRODUCT GROUP · 8 MODELS

Work Jackets

Winter, quilted, waterproof reflective, parka and softshell: the outer layer for the weather on site and the work your team does.

MW-KIM-001 WORK JACKETS

Winter Work Jacket

Water-repellent, quilted lining

The winter work jacket is a waist-length corporate top layer for standard winter conditions, with a water-repellent outer and quilted padded lining. Fleece lining, reflective and hood options.

- Water-repellent and windproof taslan/polyester outer fabric
- Quilted padded lining — for standard winter conditions
- Fleece lining option — a softer handle and extra insulation
- Waist/hip-length cut, full-length zip with a storm flap
- Two side pockets + inner pocket + chest pocket
- Fixed or detachable hood

SIZES	XS – 5XL; men's and women's patterns
LOGO	Logo embroidery or transfer print — left chest, back, sleeve

MW-MG77-001 WORK JACKETS

7/7 Gabardine Quilted Winter Work Jacket

100% cotton gabardine

The 7/7 gabardine quilted winter work jacket is a navy jacket with a 100% cotton gabardine outer and quilted padded lining. Shirt collar, elasticated waist and reflective tape; made with your logo.

- 100% cotton 7/7 gabardine outer fabric
- Quilted padded lining — for winter use
- Navy (standard); corporate colour matching possible
- Reflective tape across the chest
- Shirt collar, full-length zip with a concealed placket
- Elasticated waist and cuffs — keep the wind out

SIZES	XS – 5XL; men's and women's patterns
LOGO	Logo embroidery or transfer print for the back

MW-SGM-001 WORK JACKETS

Waterproof Reflective Work Jacket

Navy body, silver tape

A hooded winter work jacket with a navy body and reflective tape across the chest, sleeves and waist. Made to order for your company, for wet sites and night work.

- Silver retroreflective tape on a navy body
- Reflective layout: horizontal across the chest + around the sleeves + around the waist/hem
- Waterproof / water-repellent technical outer fabric
- Hooded — stows away in the collar
- Padded lining — insulation for winter conditions
- Full-length zip, storm flap at the front

SIZES	XS – 5XL; men's and women's patterns
LOGO	Logo embroidery, transfer print or reflective application

MW-IKP-001 WORK JACKETS

Work Coat and Parka

Long cut, padded

The work coat and parka is corporate outerwear for harsh winter conditions, with a long cut, a waterproof outer fabric and a padded lining. Made with a detachable hood and your company logo.

- Long cut — hip/thigh length, reduces heat loss
- Waterproof and windproof outer fabric
- Quilted padded lining — thickness can be increased on request
- Detachable hood; faux-fur trimmed collar on request
- Adjustable cuffs and a zip chin guard
- Multiple pockets: chest, side, inner and hand-warmer pockets

SIZES	XS – 5XL; men's and women's patterns
LOGO	Logo embroidery, transfer print; back lettering

MW-51-001 WORK JACKETS

5-in-1 Work Jacket

Hi-vis reflective parka with inner jacket

5-in-1 work jacket: a waterproof hi-vis parka with a zip-in inner jacket; remove the sleeves for a gilet, reverse it for navy fleece. Stock model, logo printed.

- Outer parka: fluorescent upper body + navy lower section; dirt and stains build up mostly on the lower section, and navy hides them
- Waterproof construction: PU-coated outer fabric and taped seams
- Reflective tape: vertical bands down from the shoulders, double circumferential bands on the body and sleeves
- Concealed hood: sits inside the collar when not in use
- Two-way zip and snap-fastened front placket
- Elasticated cuffs: reduce cold getting in at the wrist

COLOUR	Yellow-navy, orange-navy
SIZES	XS – 4XL
LOGO	Back and chest; placed so that it does not cover the reflective tape

MW-LP-001 WORK JACKETS

Branded Puffer Jacket

Lightweight quilted work jacket

A lightweight quilted work jacket; stand collar, full-length zip, zipped side pockets, synthetic fill. Black, navy, anthracite or your corporate colour.

- Horizontal quilted channels — the fill spreads evenly across body and sleeves and holds the warmth
- Light synthetic fill — no down; does not collapse when wet and is machine washable
- Water-repellent ripstop outer — in drizzle water beads on the surface, and tears do not spread
- Stand collar — padded and soft; does not irritate the neck
- Two zipped side pockets — concealed zips, a clean corporate look
- Elasticated cuffs and hem — keep their shape and reduce cold air getting in

COLOUR	Black (pictured), navy, anthracite, stone grey · corporate colours on request
SIZES	S – 4XL standard; XS and 5XL on request

MW-SS-003 WORK JACKETS

Softshell Work Jacket

Waterproof and windproof, logo printed

Waterproof and windproof fabric, stand collar, full-length zip, zipped chest and side pockets. Logo printing; model, colour and design made to order.

- Waterproof and windproof softshell fabric — keeps rain and wind out
- Stand collar — covers the neck and stops wind getting in at the collar
- Full-length zip and a zipped chest pocket
- Two zipped side pockets
- No hood, straight cut — does not clash with hard hats, radios or safety vests
- Model, colour and design can be changed for your company · colour pictured: black

LOGO	Left chest and the wide back area · embroidery not recommended
SIZES	XS – 5XL · mixed size breakdown

MW-OGM-001 WORK JACKETS

New-Style Security Jacket

Winter, with reflective tape

A winter security jacket made in line with the uniform principles of Turkish Law No. 5188: water-repellent outer, thermally padded lining, reflective tape, GÜVENLİK lettering on the back.

- A winter jacket in line with the new-style private security uniform arrangement
- A water-repellent, windproof outer fabric
- Quilted, thermally padded lining — for standard winter conditions
- Dark corporate colours: black, navy, anthracite
- Reflective tape on the sleeves and back — visibility on night duty
- Multiple pockets: radio, pen, paperwork, phone and side pockets

SIZES	XS – 5XL; men's and women's patterns

GOOD TO KNOW

Layering

In the cold, three layers work better than one thick jacket: a thermal base layer that wicks sweat, a fleece or padded gilet that holds warmth, and a jacket that keeps out wind and water. Staff add or remove layers through the day.

Base layer · wicks sweat

Mid layer · holds warmth

Outer layer · blocks wind and rain

Work Gilets and Vests

From reflective hi-vis and engineer's vests to padded, fleece and softshell gilets. Free arm movement and plenty of room for the logo.

MW-RIYM-001 WORK GILETS AND VESTS

Reflective Engineer's Vest

Hi-vis vest with pockets

The engineer's vest is a reflective hi-vis vest made for site engineers, managers and technical staff, with heavy woven polyester hi-vis fabric to EN ISO 20471 and a five-pocket layout.

- EN ISO 20471 Class 2 configuration
- Heavy woven polyester hi-vis fabric — durable for site use
- 5-pocket layout: 2 flapped chest, 1 pen, 1 inner, 1 radio/back pocket
- Flapped chest pocket for an ID or lanyard card
- 360° reflective layout — chest, back, shoulders and armhole edges
- Hook-and-loop or zip fastening, adjustable waist

SIZES	XS – 5XL; special sizes possible
LOGO	Logo embroidery, transfer print, back lettering

MW-RIY-001 WORK GILETS AND VESTS

Reflective Hi-Vis Safety Vest

Hi-vis yellow and orange

Class 2 configuration, yellow/orange, back lettering and logo application.

- A fluorescent background + reflective tape layout designed around Class 2 area logic
- Lightweight polyester knit fluorescent (hi-vis) fabric
- Retroreflective tape across the chest, back and shoulders
- Hi-vis yellow or hi-vis orange — the two established colours in the sector
- Hook-and-loop (Velcro) or zip fastening
- One adjustable size (fits M–XXL) or an XS–5XL size range

LOGO	Logo embroidery, transfer print, "VISITOR" / "ÖZEL GÜVENLİK" / company lettering

MW-MV-001 WORK GILETS AND VESTS

Mesh Hi-Vis Vest

Summer reflective work vest

A summer work vest in fluorescent neon mesh with two reflective bands around the body. Reduces heat stress on summer sites.

- Fluorescent mesh fabric — the open-knit construction lets air straight through
- Two reflective bands — two horizontal silver bands around the body
- Very light — adds no feeling of extra weight over the uniform
- Sleeveless, V-neck — does not restrict shoulder or arm movement at all
- Fastening: hook-and-loop or press studs

COLOUR	Neon yellow, neon orange
SIZES	S – 4XL standard; XS and 5XL on request
LOGO	Left chest and back application

MW-GYR-001 WORK GILETS AND VESTS

Reflective Gabardine Gilet

Quilted lining

A navy work gilet with a 100% cotton 7/7 gabardine outer and quilted padded lining. With chest reflective tape and flapped pockets, made with your logo.

- 100% cotton 7/7 gabardine outer fabric — resistant to abrasion
- Quilted padded lining — for winter use
- Navy body (standard); corporate colour matching possible
- Reflective tape across the chest — visibility in low light
- Two flapped chest pockets
- Stand collar, full-length zip

SIZES	XS – 5XL; men's and women's patterns
LOGO	Logo embroidery or transfer print for the back

MW-IPY-001 WORK GILETS AND VESTS

Fleece-Lined Work Gilet

The fleece-lined work gilet is a two-layer winter gilet combining a hard-wearing microfibre outer with a soft fleece lining. Zipped chest and side pockets, made with your logo for field teams.

- Two-layer construction: microfibre outer + fleece lining
- Stand collar — blocks wind getting in at the neck
- Full-length zip with a chin guard
- Zipped chest pocket — for a phone, ID and pen
- Two zipped side pockets — contents stay safer than in open pockets
- Sleeveless cut — shoulder and arm movement is free

SIZES	XS – 5XL; men's and women's patterns
LOGO	Logo embroidery, or transfer print on the back

MW-PIY-001 WORK GILETS AND VESTS

Fleece Gilet

Logo and embroidery

A corporate work gilet with a stand collar and full-length zip, made from anti-pilling fleece. Embroidered or printed for office and site teams.

- Brushed knitted fleece fabric with an anti-pilling finish
- Stand-up collar — round neck on request
- Full-length zip; press-stud fastening option
- Side pockets; inner and chest pockets added on request
- Sleeveless cut — shoulders and arms move freely
- Works as a mid layer under jackets and parkas

SIZES	XS – 5XL; men's and women's patterns
LOGO	Logo embroidery (the best method) or transfer print for the back

MW-MIK-001 WORK GILETS AND VESTS

Softshell Gilet

Windproof, logo printed

Windproof, water-repellent softshell, stand collar, full-length zip and zipped side pockets. A logo-printed sleeveless work gilet.

- Softshell fabric — blocks the wind, has a water-repellent surface and stretches
- Sleeveless cut — covers the torso and leaves arm movement completely free
- Stand collar — the zip closes up to chin level
- Full-length zip — put on and taken off in seconds as a layer
- Two zipped side pockets — concealed zips, a clean corporate look

COLOUR	Black (pictured), navy, anthracite, grey and corporate colour production
SIZES	XS – 5XL
LOGO	Printed on the left chest and back · embroidery not recommended

MW-BW-001 WORK GILETS AND VESTS

Winter Padded Gilet

Fleece-lined and reflective options

A thick, warm winter work gilet. Fleece-lined or unlined, with or without reflective tape; colour, lining and logo set for your company.

- Thick, padded body — a warm winter work gilet for cold sites
- Fleece-lined or unlined — the fleece lining adds warmth, the unlined version is lighter
- With or without reflective tape — a reflective band across the chest is optional
- Horizontal quilted channels — keep the padding evenly spread across the body
- Stand collar — covers the neck and keeps the cold out
- Full-length zip and two zipped side pockets

COLOUR	Colour, lining colour and logo are set for your company
SIZES	XS – 5XL · larger sizes made to pattern

MW-SIY-001 WORK GILETS AND VESTS

Padded Work Gilet with Side Pockets

A stand collar, full-length zip and quilted fill, sleeveless; two side pockets at waist level and no chest pocket. With your company logo.

- Sleeveless cut — keeps the body warm and leaves arm movement free
- Horizontal quilted channels — stop the fill gathering in one area
- Stand collar — blocks wind getting in at the neck
- Full-length zip front
- Two side pockets — at waist level; for warming hands and small items
- No chest pocket — a clean front with plenty of room for the logo

COLOUR	The model in the images is black; corporate colours on request
SIZES	XS – 5XL; women's and men's patterns

MW-SY3C-001 WORK GILETS AND VESTS

3-Pocket Padded Work Gilet

The 3-pocket padded work gilet is a padded corporate mid-layer with a stand collar and full-length zip. With a zipped chest pocket and two side pockets, made with your logo for site and office teams.

- Stand collar — stops wind getting in at the neck
- Front fastening with a full-length zip
- Three pockets: 1 zipped chest + 2 zipped side pockets
- Quilted panel construction with synthetic fill
- Sleeveless cut — shoulders and arms move freely
- Lightly water-repellent outer surface

SIZES	XS – 5XL; men's and women's patterns
LOGO	Logo embroidery or transfer print — left chest, back, back of the collar

MW-YHT-001 WORK GILETS AND VESTS

Multi-Pocket Work Vest

Grey body, blue piping

An unlined grey work vest in blended fabric, with a zip and six pockets. For tradespeople.

- Sleeveless cut — does not restrict shoulder and arm movement
- Six-pocket layout: 2 flapped bellows chest, 1 zipped horizontal, 2 lower flapped bellows, 1 pen/tool slot
- Full-length zip front fastening
- V neck — sits comfortably over a shirt collar
- Blue contrast piping on a grey body
- Unlined, breathable blended (polyester-cotton) fabric

SIZES	XS – 5XL; men's and women's patterns
LOGO	Logo embroidery or transfer print — left chest and back

PRODUCT GROUP · 2 MODELS

Coveralls

One-piece protection: short- and long-sleeved gabardine coveralls. Colour, fabric, sleeve length, collar and pocket layout are set for your company.

MW-TU-002 COVERALLS

Long-Sleeved Work Coverall

Gabardine, made to your specification

Gabardine, shirt collar, concealed front placket, cuffed sleeves, flap chest pockets. Model, colour and logo made for you; embroidery or print.

- One-piece, long-sleeved work coverall — gabardine fabric
- Shirt collar and concealed front placket
- Cuffed sleeves — sit at the wrist and can be rolled up in the heat
- Two flap chest pockets and two side pockets
- Gathered waist adjustment — the body stays comfortable while the waistline is drawn in
- The product can be customised for your company: colour, fabric, collar and pocket layout

LOGO	Embroidery or print · left chest, back and sleeve
COLOUR	Anthracite and navy · corporate colours on request
SIZES	XS – 5XL · larger special sizes; separate women's and men's patterns

MW-TU-001 COVERALLS

Short-Sleeved Work Coverall

Summer gabardine, made to your specification

Summer gabardine, shirt collar, concealed front placket, flap chest pockets. Model, colour and logo made for you; embroidery or print.

- One-piece, short-sleeved summer work coverall — breathable gabardine fabric
- Shirt collar and concealed front placket
- Two flap chest pockets and two side pockets
- Gathered waist adjustment — the body stays comfortable while the waistline is drawn in
- The product can be customised for your company: colour, fabric, sleeve length, collar and pocket layout

LOGO	Embroidery or print · left chest, back and sleeve
COLOUR	Anthracite and navy · corporate colours on request
SIZES	XS – 5XL · larger special sizes; separate women's and men's patterns

GOOD TO KNOW

Coverall, or trousers and a top?

A coverall is one piece, so it protects the body without gaps and the waist never opens when bending — ideal for paint, oil and dust. Where staff change often or work in the heat, trousers and a top are more practical. We will decide together based on your team's work.

Rainwear and Waterproofs

Suit, vest, trousers and poncho: staying dry on wet sites. On coated fabrics the logo is printed.

MW-YGT-001 RAINWEAR AND WATERPROOFS

Reflective Oxford Rain Suit

Hi-vis, hooded; jacket and trousers

Hooded rain jacket and trousers in fluorescent yellow or orange, reflective tape on body, sleeves and legs. Logo printed.

- A set of a hooded rain jacket and rain trousers
- Oxford fabric — a tightly woven rainwear fabric that resists tearing and abrasion
- Fluorescent yellow or fluorescent orange background
- Reflective tape: two bands on the body, two on each sleeve, two on each trouser leg
- Snap front placket — covers the front fastening and stops rain getting in at the front
- Two flap pockets · drawstring hood

LOGO	Logo printing · embroidery not recommended

MW-NS-006 RAINWEAR AND WATERPROOFS

Rain Vest

Sleeveless, waterproof

A PU-coated polyester shell, waterproof welded seams, a drawcord hood and reflective tape. For courier, field and event teams.

- Sleeveless shell cut — arms completely free; does not restrict steering, handheld terminal use or loading
- PU-coated polyester outer — waterproof, windproof, wipes clean
- Welded seams — no water leaks through stitch holes
- Drawcord hood — tightens around the face with a toggle
- Full-length zip — goes on quickly over the clothing underneath
- Reflective tape — around the chest and on the back; visibility at dusk and at night

COLOUR	Neon yellow (fluorescent), navy, black, orange
SIZES	S – 3XL standard; XS and above 4XL on request
LOGO	Applied on the left chest and back

MW-YGM-002 RAINWEAR AND WATERPROOFS

Waterproof Rain Trousers

Worn over work trousers

Worn over work trousers with the hem over the boot; with side zips they go on without taking your shoes off.

- Worn over work trousers; the hem sits over the boot
- With side zips, goes on without taking boots off
- In heavy rain, worn with a long rain jacket
- Logo printed

ORDER	Minimum 100 pieces · colours and sizes split freely
LEAD TIME	Average 15 working days after design approval

MW-NS-004 RAINWEAR AND WATERPROOFS

Rain Poncho

Emergency spare

PE/PVC with a hood, one-size wide cut, folds down to pocket size. For events, promotions and a spare in the vehicle.

- Poncho cut — a wide form hanging from the shoulders, open at the sides; goes over any size and any clothing
- Hooded — fixed hood, no drawcord or toggle (a simple construction)
- PE / PVC surface — waterproof, wipes clean
- Folds to pocket size — kept in a vehicle glovebox, a bag or at a warehouse entrance
- One-size wide cut — no need to plan a size breakdown
- Note: not safety clothing; it is a spare, temporary protection item

COLOUR	Neon yellow, clear, navy
LOGO	Printed on the large front and back areas

GOOD TO KNOW

Logos on rainwear

On coated, welded-seam fabric, embroidery punches needle holes that let water in. That is why we print logos on rainwear and softshell products, and never place a logo over reflective tape.

PRODUCT GROUP · 14 MODELS

Thermal Wear and Accessories

Thermal base layers, beanies, neck warmers, gloves, caps, belts and knee pads: branded pieces that complete the uniform.

MW-TI-001

Thermal Base Layer Top

Base layer

- A close-fitting construction that wicks sweat away from the skin
- The first layer: base layer, then fleece or gilet, then jacket
- For cold sites and cold stores

MW-TI-002

Thermal Base Layer Bottoms

Long johns

- Thin and low-bulk; worn under work trousers
- More freedom of movement than heavily lined trousers
- Especially effective for teams wearing coveralls

MW-AK-008

Branded Fleece Shawl

Embroidered or printed

- Fleece shoulder shawl with no sleeves or buttons
- Wide back panel
- No tassels, cleanly finished edges (as pictured); tasselled edges on request

MW-AK-006

Hard Hat Liner

Thin fleece cap

- A single layer of thin fleece
- A cut that covers the ears; a slim profile that does not clash with the harness
- Seamless or flat-seamed crown

MW-AK-001

Beanie with Logo

Corporate winter accessory

- Turn-up or plain cut
- Acrylic, wool-blend or fleece-lined options
- Logo: embroidery or woven label

MW-AK-003

Fleece Neck Warmer

Thermal tube

- Seamless tube — cannot catch in machinery
- Closes the collar gap; covers the mouth and ears when needed
- With your company logo

MW-AK-005

Balaclava

Thermal fleece face protector

- Thermal fleece face protector
- Cut to work with hard hats, safety glasses and masks
- For windswept sites and deep-freeze stores

MW-AK-004

Corporate Scarf

Acrylic knit

- Acrylic knit: holds its colour, does not shrink in the wash
- Embroidered logo, or a jacquard logo knitted in
- For office, reception and customer-facing staff

MW-AK-002

Thermal Gloves

Water-repellent, lined

- Water-repellent outer, insulating lining
- Thickness to suit the job: thick lining for heavy handling, grip coating for fine work
- For cold store and outdoor teams

MW-AK-007

Thermal Socks

Winter work socks

- Moisture-managing construction
- A thickness that fits safety shoes
- For cold store and outdoor teams

MW-SAPKA-001

Cap with Logo

Promotional and staff

- Your company colour; fabric developed in your corporate colour
- 5-panel or 6-panel construction
- Adjustable back closure (snap, buckle or hook-and-loop)

MW-NS-001

Work Belt

Tactical canvas

- Canvas webbing: light, washable, unaffected by moisture
- Buckle options: plastic clip, fabric-covered or flat metal
- One cut-to-length size, or standard and long

MW-NS-002

Trouser Braces

Canvas, X-back

- Canvas braces that move the load of full pockets from the waist to the shoulders
- Clip or button attachment; X-back construction
- For technical service and field teams

MW-NS-003

Knee Pads

Type 2, for trouser pockets

- Type 2: foam knee pads that fit into trouser knee pockets
- Protection level 0, 1 or 2 depending on the ground
- Compatible with our trousers with knee-pad pockets

PRODUCT GROUP · 8 BRANDS AND S5 BOOTS

Safety Footwear

We do not make safety footwear; we supply it from brands we are dealers for, in the safety class your team's work requires. Size collection support for bulk orders and delivery by branch.

The right safety class

Safety footwear is classified under EN ISO 20345. The working environment decides the class: is the floor wet, is there a puncture risk, are there hot surfaces or sensitive electronics?

Tell us about your team and where they work; we will choose the right class and model for each team together.

Size support for bulk orders

- We collect your team's shoe sizes on a form before ordering.
- EU sizes 35–48; larger sizes supplied on request.
- Where staff are unsure, we send a sample pair first.
- Mixed size breakdowns are supplied in one batch.
- Genuine products, invoiced supply; separate delivery to multiple locations.

SB	Basic	Toe protection resisting 200 J impact and 15 kN compression
S1	SB +	Antistatic, heel energy absorption, closed heel
S1P	S1 +	Puncture resistance — metal midsole
S1PL / S1PS	S1 +	Puncture resistance — non-metal midsole
S2	S1 +	Upper resists water absorption
S3	S1P +	Water resistance and a cleated outsole
S5	Boot	One-piece waterproof body, steel toe, puncture-resistant sole
SRC	Sole	Passes slip tests on both ceramic and steel floors
HRO	Sole	Outsole withstands contact at 300 °C for 60 seconds
ESD	Electrical	Controls static discharge; protects sensitive electronics
